In Attendance
None

1 Actions for consideration

None

2 Any Other Business

None

3 New Business

Scrums are 1 week increments. Planning is complete at end of minutes.
Code, Test, and Document this Scrum.
What will be completed in the next Scrum:
Everyone -

- Finish BREADTH of your tests

- Start DEPTH of your tests

- Standardize your DB against the standard gusphp.sql DB in php/db

- Make sure all controllers work on your install, and your controllers work on others

- Cindy:

  1. Document inventory of MVC's.
  2. Create a VM of WAMP/LAMP/etc that works for everyone (OS's, arch's, etc)
  3. Read about PHPDoc and start helping everyone use it to document code. More?
  4. Talk with all developers, inventory functionality and bring up at next meeting how to centralize functions
  5. After talking with all dev'ers, create Red/Green Light tests to their existing test functions.

- Chaylo:

  1. Not present, please meet with us Chaylo! Also see Tim section, he is assisting you.

- Zeke:

    1. finish linking calendar to db
    2. finish week and day views of calendar
    3. start Security Controller, stub out and finish basic functionality

- Abhay:

    1. see last week, will move on to new controller Monday.

- Alex:

    1. finish file display function/views
    2. finish delete file function/views
    3. start edit file function/views
    4. talk with other user table dev'ers in gusphp and standardize / include user permission functionality

- Scott:

    1. work on (finish?) search controller?
    2. have usable Google custom search alternative until then

- Brett:

    1. finish user integration with user/group page controllers

- Leah:

    1. assist Cindy

- Tim:

    1. assist with forum controller
    2. finish add/delete boards
    3. finish add/delete threads (children of boards)
    4. potential real web server?

- Colby:

1. finish group member table, incorporate permissions usable by others
2. finish group member controllers
3. start permissions specific to groups (vs. existing gus admin permissions)

4   Any Other Business

The next meeting is on Febuary 4th (today) @ 5:00pm in McClure 117.
Scrum ends February 11th, 2011.

5   Adjourned
